

To whom it may concern,

The LPFM issue on taking priority over current FM translator service and the effect it would have on KLOVE radio is unsatisfactory.

KLOVE is a strong value to all it's listeners, it is great to have a station to listen to that promotes the worship of the Lord. It does encourage and change lives, I have seen it happen on numerous occasions. And the storys of the people it has saved are incredible.

The effect of loseing KLOVE stations would be terrible to it's millions of listeners. The message would be lost and so would the people who the stations touch and change. These stations serve the public with clean airwaves and not the smut that is all over other stations, funny that filth can flood the airwaves.

I think it best if this issue be stopped and stsions like KLOVE can keep serving the public and the people that support it and it's message. In God we trust, thank-you, Cecil woolley
